02 July 2010

Dear Dr Weiner

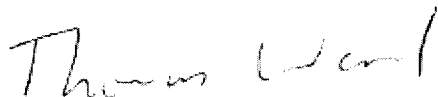

Thank you for submitting your paper No. **20.1073** entitled **A gap for the maximum number of mutually unbiased bases** by **Dr M Weiner** for possible publication in one of the periodicals of the London Mathematical Society. **Professor Roger Smith** has obtained a report from a referee about your paper and all the correspondence has now been forwarded to this office.

We regret that we are not able to publish your paper, such is the extreme pressure on publication space in the Bulletin. At present, we are compelled to reject some strongly recommended papers. In the case of your paper, although the referee supported publication, we have felt obliged to give precedence to more highly recommended contributions.

The referee's report is made in confidence to the Editors, but includes some comments for the author which we enclose.

We are sorry that we have had to disappoint you on this occasion, but hope that you will have no difficulty in finding another good journal willing to publish your paper.

Yours sincerely,

A handwritten signature in cursive script, which appears to read 'Thomas Ward'.

**Dr SAR Stevens**  
**Professor TB Ward**
