

In the tradition of EuroComb'01 (Barcelona), EuroComb'03 (Prague), EuroComb'05 (Berlin), EuroComb'07 (Seville) and EuroComb'09 (Bordeaux), this conference will cover the full range of Combinatorics and Graph Theory including applications in other areas of Mathematics, Computer Science and Engineering. A special occasion why this conference is held in Budapest is that Gyula O.H. Katona will be 70. We shall celebrate his birthday by the satellite conference Katona'70 held immediately after EuroComb'11.
