VI. Europe - Marie Skłodowska-Curie Actions Doctoral Networks 2025 - Call info day.....	3
VII. Open calls and applications	4

I. Hubert Curien-Balaton Program pályázati felhívása 2026-2027-re

A Magyar Állam felajánlása alapján a Tempus Közalapítvány felhívást tesz közzé a Kulturális és Innovációs Minisztérium (KIM), valamint a francia Európa-ügyi és Külügyminisztérium (MEAE) és a francia Felsőoktatási, Kutatási és Innovációs Minisztérium (MESRI) révén megvalósuló magyar-francia kétoldalú, két év időtartamra szóló projektek megvalósítására a bölcsészet- és társadalomtudományok területén.

A felhívásra magyarországi felsőoktatási intézmények tanszékei, intézetei, kutatócsoportjai, valamint kutatóintézetek vagy felsőoktatási intézménnyel társult cégek jelentkezését várjuk, akik francia partnerükkel közös együttműködést kívánnak megvalósítani. A program célja kiemelkedő kétoldalú kutatási projektek létrehozása. Előnyt élveznek az új együttműködések, valamint a fiatal kutatók és doktoranduszok közreműködésével megvalósuló projektek.

A pályázatokat a Tempus Közalapítvány online pályázati felületén, a palyazat.tpf.hu oldalon lehet benyújtani.

Jelentkezési határidő: **2025. június 3. 16.00 óra**

A részletes pályázati felhívás [itt](#) olvasható.

II. Research & Innovation for a Competitive Europe

The ERC is organising an event on Europe's competitiveness with a focus on cutting-edge science and innovation in Brussels on 10 April 2025.

Leading figures from research, industry and policy-making will engage in a dialogue on enhancing Europe's competitiveness through cutting-edge science and innovation. The speakers will address the challenges posed by the evolving global economy in a changing world and discuss strategies to bolster Europe's competitiveness. They will comment on the Mario Draghi report and other recent policy documents. Discussions will explore the role of fundamental research in driving economic growth, as well as the policies and measures necessary to create an environment where scientists and innovators can thrive. This event will build on a closed expert workshop on the same theme.

This is a livestreamed and in person event. The final program will be published soon.

Date: **10 April 2025, 16:30-18:00 CET**

Venue: **Brussels, Belgium (livestreamed)**

For more information, please click [Here](#). In the meantime, you may register [Here](#).

III. Falling Walls Global Call

The Falling Walls Global Call is an international competition format that brings together science enthusiasts from diverse backgrounds. Organisers are looking for the most recent and innovative Science Breakthroughs of the Year. They encourage and invite nominations and applications from all over the world. To help make the Falling Walls Science Summit 2025 the celebration that excellent science deserves, we launch the Falling Walls Global Call each year in the beginning of March.

Organisers welcome applications in the following categories: Life Sciences; Physical Sciences; Engineering & Technology; Social Sciences & Humanities; Art & Science; Science Start-ups (Falling Walls Venture); Science Engagement (Falling Walls Engage); Women's Impact Award (Female Science Talents).

Organizers host two online Open Hour sessions to provide answers about the nomination and application process for all eight Global Call categories (15 April 2025 and 17 April 2025).

Application and nomination deadline: **30 April 2025**

For more information about the call and the registration for the online sessions, please visit this [Page](#).

IV. Encouraging and managing interactions with online communities

ISC Members and early and mid-career scientists are invited to join an online training session exploring how scientists can encourage interactions with online communities to promote and communicate their work on social media.

This is the fifth of six social media training modules to be delivered over 2024-2025 designed for International Science Council Regional Focal Point for Asia and the Pacific Members to build capability in communicating science, digital storytelling and use of social media platforms.

In this webinar, organisers will discuss the following topics: Reputation Management, Building Long-Term Relationships and Encouraging Inclusive Participation. At the end of the webinar, a Q&A session will be held.

Please note that you might watch the recorded webinar along with the previous trainings.

Date: **30 April 2025, 6:00-7:30 UTC**

Venue: **Online**

V. Mischke YAE Prize for Science and Policy 2025 - Call for nominations

The Young Academy of Europe's (YAE) Prize is awarded annually to an early to mid-career professional in recognition of their outstanding achievements and contributions to key areas of the YAE. In 2019, the YAE Prize was named "*André Mischke YAE Prize for Science and Policy*" in honour of the late YAE Founding Chair, André Mischke. The prize is given to support and promote science, evidence-based policy making, science communication, and future generation scientists and scholars in Europe, and it honours outstanding contributions and achievements that align with the core mission of the YAE. It is awarded on recommendation of the YAE Prize Search Committee and by decision of the YAE Board. The YAE prize (EUR 1 000, contingent on sufficient available funds) is officially awarded at the Annual Meeting of the YAE.

All members of the YAE, European National Young Academies, Academia Europaea and other European (scientific) organizations are invited to nominate an outstanding candidate for the YAE prize. Candidates should be early-to mid career academics or professionals (e.g., max 15 years after obtained PhD) of any nationality, but who are working/have worked in Europe, or abroad at a European Institution. Furthermore, the candidate is neither a YAE member nor a YAE alumna/alumnus. Self-nominations are not accepted.

Nomination deadline: **30 April 2025**

For more information, please click [Here](#).

VI. Europe - Marie Skłodowska-Curie Actions Doctoral Networks 2025 - Call info day

The Marie Skłodowska-Curie Actions (MSCA) Doctoral Networks implement doctoral programmes, by partnerships of universities, research institutions and infrastructures, businesses including SMEs, and other socio-economic actors from different countries across Europe and beyond.

These doctoral programmes will respond to well-identified needs in various research and innovation areas, expose the researchers to the academic and non-academic sectors, and offer research training, as well as transferable skills and competences relevant for innovation and long-term employability.

This is an information event for the MSCA-DN-2025 call for proposals which will open on 28 May 2025. The main objectives are to inform all potential applicants and stakeholders about the key aspects of the MSCA-DN-2025 call for proposals, and to promote the Industrial Doctorate and Joint Doctorate modes and present the main incentives.

It will be an online event, which will be opened with a welcome address and some introductory remarks, followed by the main presentation of the DN-2025 call. After a short coffee-break, a live Q&A session will take place through Slido.

Date: **24 June 2024**

Venue: **Online**

You may read more about the event [Here](#).

VII. Open calls and applications
